

SUSHANTH BANDARI

AI Enthusiast | MERN Stack Developer | Full Stack Developer

☎ +918919741818 ✉ sushanth1208@gmail.com 🔗 LinkedIn 🐙 GitHub 📍 Hyderabad, India

PROFESSIONAL SUMMARY

Computer Science Engineering student at Anurag University with hands-on experience in Full Stack Development, MERN Stack Development, AI Engineering, and AI Agent-based systems. Experienced in building scalable web applications, AI-powered platforms, and intelligent automation solutions through internships, hackathons, and personal projects. Worked both independently and in collaborative teams to design, develop, and deploy real-world applications. Passionate about leveraging Artificial Intelligence, Machine Learning, and modern web technologies to solve practical problems and create impactful digital products.

WORK EXPERIENCES

MERN Stack Developer Intern | Internship

Feb 2026 - Present

WiseAcad by SuntekCorp

- **Developed** and maintained **full-stack web applications** using the **MERN stack** (MongoDB, Express.js, React.js, Node.js).
- **Built** responsive user interfaces and integrated **RESTful APIs** for seamless frontend-backend communication.
- **Collaborated** with team members to implement scalable features and improve application performance.
- **Gained** practical experience in software development lifecycle, version control, deployment, and agile development practices.

Technologies / Skills Used : MongoDB, Express.js, React.js, Node.js

EDUCATIONS

Anurag University | Hyderabad

2024 - 2028

Bachelor of Technology (Computer Science Engineering)

CGPA : 8.33

- **Bachelor of Technology (Computer Science Engineering)** - Anurag University

Narayana Junior College

2022 - 2024

Intermediate (MPC)

CGPA : 95.6%

- Percentage: **95.6%**

PROJECTS

V-Learn | 🐙 Github 🌐 Website

Full Stack Developer

- **Developed** a comprehensive **AI-powered MERN Stack e-learning platform** supporting both student and mentor workflows.
- **Implemented** course creation, video lecture management, enrollment systems, virtual libraries, online assessments, and student progress tracking.
- **Built** secure authentication and authorization using **JWT** with role-based access control for mentors and students.
- **Integrated** AI-powered chatbot assistance, personalized course recommendations, Cloundinary media storage, and analytics dashboards for enhanced learning experiences.

Technologies / Tools Used : React.js, Node.js, Express.js, MongoDB Atlas, Mongoose, JWT, Tailwind CSS, Cloundinary, Context API, Axios, Git, GitHub

Coffee-With-Cinema | 🐙 Github

Full Stack Developer

- **Developed** an **AI-powered filmmaking platform** that transforms story ideas into complete production packages, including screenplays, character profiles, shot lists, sound design, and storyboard images.
- **Integrated** Groq LLM and Stable Diffusion models to generate scripts, cinematic visuals, and production planning assets automatically.
- **Implemented** PDF, DOCX, and TXT export functionality along with project-based storyboard organization and persistent storage.
- **Designed** an interactive cinematic user interface with workflow automation to assist filmmakers in pre-production planning.

Technologies / Tools Used : Python, Flask, Groq API, Hugging Face, Stable Diffusion, JavaScript, HTML5, CSS3, ReportLab, python-docx

DhvaniSense | 🐙 Github

AI Engineer

- **Developed** an **AI-powered voice classification system** capable of detecting AI-generated and human-generated speech from audio samples.
- **Built** a production-ready **FastAPI backend** with API key authentication, model training, validation pipelines, and report generation modules.
- **Implemented** audio feature extraction, dataset validation, model checkpointing, and cloud deployment support using Docker.
- **Designed** the solution for deepfake voice detection, voice authenticity verification, and AI voice fraud prevention use cases.

Technologies / Tools Used : Python, FastAPI, Scikit-learn, Librosa, NumPy, Pandas, Docker, Uvicorn, FFmpeg, Google Cloud, Azure

SKILLS

Languages :	English, Telugu, Hindi
Soft Skills :	Communication, Teamwork, Leadership, Creativity, Problem Solving, Adaptability
Programming Languages :	Python, Java, C, JavaScript
Databases :	MongoDB, MySQL
Frameworks & Libraries :	HTML5, CSS3, Tailwind CSS, React.js, Node.js, Express.js, FastAPI
Tools & Platforms :	Docker, Microsoft Azure, Google Cloud Platform, Git, GitHub, REST APIs, Mongoose

AWARDS & ACHIEVEMENTS

Finalist – India AI Impact Buildathon 2026

Feb 2026

AI Impact Summit

- Selected among **40,000+** developers nationwide as a finalist for DhvaniSense, an **AI-powered voice authenticity detection system**.

3rd Place – GENAI FORGE Hackathon

Feb 2026

NASSCOM AI-Assisted Developer Marathon

- 3rd Place – GENAI FORGE Hackathon (NASSCOM AI-Assisted Developer Marathon) for Coffee With Cinema full-stack movie web application.
